WARRANTY COVERAGE

This warranty applies to the original purchaser of the floor and is not transferable. Scratching, indentations, and loss of gloss are not considered as wear. Your floor is warranted against grading, finishing and milling defects in excess of the applicable waste factor. *Waste factor* is an industry term that refers to an allowance for manufacturing and natural defects in flooring and is represented by a percentage. While board selection may vary according to personal preference, waste is determined by NWFA standards generally waste will be no more than 5% to 10% of the total square footage of your purchase. However, waste may be higher based on room layout, product description, or product grade.

Manufacturing defects do not include natural wood characteristics such as mineral streaks, knots, grain variations, normal minor differences between color of samples and the color of installed floors, color variations from board to board, or minor width variation. Due to the nature of wide width plank (3" and wider), some minor width variation is to be expected and is not

considered a defect. Hardwood flooring, being a natural product, will continue to expand and contract through heating and non-heating seasons. Even properly installed hardwood floors may experience some minor separations between boards at different times during the year. If separations do occur, they will not be covered under this warranty.
